**FOR IMMEDIATE DISTRIBUTION**

**Waste Management Campaign**

### **COLLABORATION BETWEEN THE CITY AND SDC TO REDUCE SAINTE-ANNE-DE-BELLEVUE'S ENVIRONMENTAL FOOTPRINT**

**Sainte-Anne-de-Bellevue, September 27, 2023** - When it comes to protecting the environment, every eco-responsible gesture counts and can have a significant impact on the quality of life of citizens for generations to come. With this in mind, the City of Sainte-Anne-de-Bellevue and the Société de développement commercial (SDC) Rue Sainte-Anne have committed to working together to implement the waste management strategy and contribute to improving the City's environmental impact.

#### **Des petits gestes, pour de grands changements !**

Over the next few weeks, the city's restaurant and retail operators will be joining forces to commit to environmental sustainability by implementing concrete waste management measures for their establishments. These measures to reduce the city's environmental footprint are in addition to those already in place for the citizens of Sainte-Anne-de-Bellevue. Ultimately, the City of Sainte-Anne-de-Bellevue aims to have 70% of its residual materials recycled by 2025, compared with only 51% today.

The City of Sainte-Anne-de-Bellevue would like to thank the Société de développement commercial Rue Sainte-Anne and all the businesses and restaurants that contribute to making our city greener and more eco-responsible!
