## COVID-19

The City continues to closely monitor the situation regarding COVID-19 and the preventive measures recommended by the Government of Quebec.

Please note that the next newsletter will be sent on Monday, March 30<sup>th</sup>, unless otherwise noted.

## CLOSURE OF CITY PARKS AND THE PROMENADE

In this time of home confinement, we understand that outdoor walks are all the more important and that there may be disappointment with the closure of the parks and the Promenade du canal.

However, in order to ensure the safety of citizens, that is to say to limit access to places where it would be difficult to respect a distance of 2 meters and to avoid contamination by objects (play modules not being disinfected, for example), the City made the decision to close the parks and the Promenade, following the recommendations of the Direction de la santé publique du Québec.

Please respect this preventive measure and leave the closing banners in place. The SPVM will ensure diligent and more regular surveillance of these areas, as well as the municipal patrol.

## INFORMATION AVAILABLE IN SEVERAL LANGUAGES

The ACCÉSSS association offers information documents about COVID-19 translated into several languages.

[Visit the ACCÉSSS website to view these documents](#)

## BEWARE OF FRAUD

The SPVM warns citizens against fraudsters who are taking advantage of the current situation to claim new victims. They try to take advantage of the rumors, fears and uncertainties of the population in order to commit scams or cybercrimes.

To find out more about the schemes that can be used and obtain prevention advice, [visit the SPVM website](#).

# FLOOD WATERS

## CURRENT STATUS UPDATE

**Lac des Deux-Montagnes:** The current water level is still NORMAL.

**Lac St-Louis:** The current water level is below the "threshold of minor flooding".

## HOW CAN I BE PREPARED?

**In the event that floods occur again this year, the current situation with COVID-19 could make it harder to find volunteers and obtain other help and support services.**

**It is therefore very IMPORTANT that you take all the necessary measures to properly prepare yourself.**

### **Be proactive!**

- Check if your home is located in a [flood zone](#).
- Prepare your [family emergency plan and your emergency kit](#).
- [Register with CodeRED](#) in order to receive emergency notices issued by the City
- Check if your home insurance covers flooding.
- If you live by the river, stay alert to the weather forecast so you can react quickly if conditions deteriorate.

**Get informed!** Know what to do if the water goes up and prepare as much as possible.
