

Snow Loading Operation

Our teams will launch a snow loading operation at 4 am. The operation is expected to finish in the late afternoon on January 22nd. Please pay particular attention to signage during this period.

Note: the snow removal of the North sector is done by a private contractor and that of the South sector by the City employees.

Parking

Parking is prohibited on public roads during snow loading operations.

Thus, the parking ban is in effect for the night of January 21 to 22.

When in doubt about parking, please contact the municipal patrol (514 457-1001).

Reminders

It is strictly forbidden to push, throw or deposit snow or ice on the public domain. Be sure to notify your contractor, if applicable. Offenders will be fined.

The household waste collection will take place, as planned, on Tuesday January 22nd. We remind you that your bins must be placed on the curb before 7 am on the day of collection. Make sure the bins are visible and positioned 1 m (3 feet) from the edge of the street or sidewalk so as **not to interfere with snow removal operations**.

Also, monitor the condition of your roof so that no accumulation of snow or ice can fall and cause an accident.

For safety reasons, do not let children play close to the curb. At all times, keep an eye on your children when playing outside.

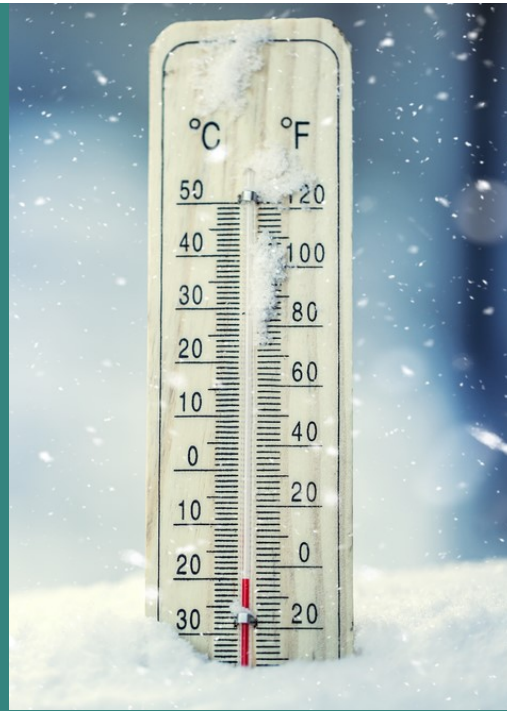

Extreme Cold

During the winter, we must all adopt safe behaviors to protect our health. Here are some tips to follow to make sure you stay healthy :

- Keep the ambient temperature of your home at a minimum of 19 °C
- Caulk doors and windows to prevent cold air infiltration
- If you use a wood stove or an auxiliary heating system, make sure the room is well ventilated
- Dress in layers of clothing
- Make sure to cover your head, nose, mouth, neck, hands and feet
- If you have to stay outdoors for a long period of time, take shelter regularly in hot, wind-free places

- Call loved ones to make sure they are alright
