

# INFO-SPRING

The return of the beautiful weather rhymes with time to get rid of what we no longer need and clean our yards!

## Spring Cleaning

The spring cleaning will take place the weeks of May 18 and 25.

**SOUTHERN SECTOR: Tuesday, May 19**  
(Monday being a public holiday, we will start on Tuesday)

**NORTHERN SECTOR: Monday, May 25**

Drop all your waste (bulky, electronic, building materials, metal, etc.) at the curb before 7 a.m. the morning of the start of collection in your sector and the Public Works department will pick them up for FREE. Note that the collection can take place over several days.

*\*\* We will not pick up hazardous household waste (HHW)*

## Distribution of compost - postponed

The Agglomeration of Montreal having postponed its distribution of compost to boroughs and suburban municipalities, we have to postpone our distribution to Sainte-Anne-de-Bellevue citizens.

We will keep you informed as soon as a new date is determined

[More information](#)

## Temporary Car Shelters

The deadline for removing temporary car shelters is **May 15**.

For additional information, please contact the Planning Department at 514 457-1400.

## Bins and Trash Can Management

### Reminder

You can put your bin at the curb from 7 pm the day before the collection until 7 am the day of the collection in order not to miss the trucks.

After the collection, put your bins back on the side or rear edge of your home as soon as possible, no later than 7 pm on the day of the collection.

*City regulations provide that your bins and trash cans cannot be stored on the front of your property. They must be enclosed in a space which is non-visible from the public road or concealed behind a wall-screen.*

## Waste Collection Schedule

[More information for other types of waste](#)

### TUESDAY

#### Organic Waste – Brown Bin Green residues

- Excess green residues can be deposited neatly in cardboard boxes or containers made of paper bags.
- NO plastic bag is accepted.

#### Household Waste - Bins with lid

- Your garbage bags MUST be placed in a rigid container with a lid.
- You can put out your bulky waste at EACH collection.

### WEDNESDAY

#### Recycling – Blue Bin

- Due to automated collection, only waste placed inside the blue bin will be picked up.

## Organic Waste Collection

Since April 7, the collection of organic materials is back to its regular schedule, that is to say every week on Tuesday at 7 am.
